

DELIVERED BY TELEFACSIMILE SEPTEMBER 9, 2002

40. (Once Amended) The polypeptide of claim 36 which further comprises a polypeptide sequence heterologous to SEQ ID NO:73.

B2 41. (Once Amended) A composition comprising the polypeptide of claim 36 and an acceptable carrier.

42. (Once Amended) An isolated protein produced by the method comprising:

(a) expressing the polypeptide of claim 36 by a cell; and

(b) recovering said protein produced by the method.

Sub C4 43. (Once Amended) An isolated first polypeptide at least 90% identical to a second polypeptide consisting of the secreted portion of the polypeptide encoded by the HATCM08 cDNA contained in ATCC Deposit No. 203858.

B3 47. (Once Amended) The polypeptide of claim 43 which further comprises a polypeptide sequence heterologous to the polypeptide encoded by the HATCM08 cDNA contained in ATCC Deposit No. 203858.

48. (Once Amended) A composition comprising the polypeptide of claim 43 and an acceptable carrier.

49. (Once Amended) An isolated protein produced by the method comprising:

(a) expressing the polypeptide of claim 43 by a cell; and

(b) recovering said protein produced by the method.

Sub C5 50. (Once Amended) An isolated first polypeptide at least 90% identical to a second polypeptide consisting of amino acid residues 1 to 105 of SEQ ID NO:73.

B4 54. (Once Amended) The polypeptide of claim 50 which comprises a polypeptide sequence heterologous to SEQ ID NO:73.

55. (Once Amended) A composition comprising the polypeptide of claim 50 and an acceptable carrier.

DELIVERED BY TELEFACSIMILE SEPTEMBER 9, 2002

56. (Once Amended) An isolated protein produced by the method comprising:

- (a) expressing the polypeptide of claim 50 by a cell; and
- (b) recovering said protein produced by the method.

B4 sup  
C6  
57. (Once Amended) An isolated first polypeptide at least 90% identical to a second polypeptide consisting of the complete polypeptide encoded by the HATCM08 cDNA contained in ATCC Deposit No. 203858.

61. (Once Amended) The polypeptide of claim 57 which further comprises a polypeptide sequence heterologous to the HATCM08 cDNA contained in ATCC Deposit No. 203858.

B3  
62. (Once Amended) A composition comprising the polypeptide of claim 57 and an acceptable carrier.

63. (Once Amended) An isolated protein produced by the method comprising:

- (a) expressing the polypeptide of claim 57 by a cell; and
- (b) recovering said protein produced by the method.
